PUBLICATIONS

Books

Constitutional Morality and the Rise of Quasi-Law. Harvard University Press, 2016 (with George W. Carey)

Subject of panel at the American Political Science Association annual meeting (September 2016)

The New Communitarians and the Crisis of Modern Liberalism. University Press of Kansas, 1996

"Frohnren must be congratulated for negotiating skillfully in difficult and often muddy waters." Roger Kimball in The Times Literary Supplement (January 1997)

"A timely book of lasting importance." Gary L. Gregg II in Perspectives on Political Science (Autumn 1997)

Also reviewed in the Wall Street Journal (September 1996), The Review of Politics (Spring 1997), Modern Age (Spring 1999), The Journal of Socio-Economics (Summer 1997), The Journal of Politics (August 1995), and the Washington Times (June 1996)

Virtue and the Promise of Conservatism: The Legacy of Burke and Tocqueville. University Press of Kansas, 1993

(Chapter 1 reprinted in Political Theory: Classic and Contemporary Readings, 2nd edition. Ed. Joseph Losco and Leonard Williams. Roxbury Publishers, 2002)

"Of Frohnren's book it may be said that not since the appearance of Kirk's monumental study, The Conservative Mind (1953), has cultural conservatism been so well defined, its

sharp differences with competing philosophies so delineated, its colors so freshened.” James E. Person, Jr. in Modern Age (Summer 1994)

“A timely and thoughtful examination of conservative thought.” Mark F. Griffith in The American Review of Politics (Autumn 1993)

Also reviewed in The Journal of American History (June 1994), The Journal of Politics (August 1995), The Times Literary Supplement (June 1993), The Christian Century (October 1993), New Oxford Review (July-August, 1995), National Review (February 1993), Crisis (January 1994), the University Bookman (Fall 1993), and The History Teacher (May 1994)

Edited Volumes

The American Nation: Primary Sources. Liberty Fund, Spring 2009

Sequel to The American Republic: Primary Sources, covering the era from the Civil War to World War II.

“Knowledgeably compiled and deftly edited. . . [This book] is a compilation of seminal documents providing insight and context for the diversity of policies and perspectives that shaped and engaged American public life and conflicts from the American Civil War to America's entrance into World War II. . . [V]ery highly recommended.” Midwest Book Review

Named an “Outstanding Academic Title” by Choice (Journal of the Association of University and Research Libraries) (2010)

Rethinking Rights: Historical, Political and Philosophical Perspectives. University of Missouri Press, Fall 2008 (with Kenneth L. Grasso)

Frohen and Grasso “have accomplished a marvelous achievement! They have assembled a contingent of undisputedly qualified scholars. . . who have addressed the pressing need to rethink and explain the meaning of rights that individuals and groups often claim in the present age. . . The volume succeeds in illustrating why an objective standard does not contravene the subjective claim to rights; it demonstrates that objectivity rather than subjectivity is essential for rights to exist and flourish.” Robert John Araujo, S.J., in the International Philosophical Quarterly (June 2009)

Also reviewed in History of Political Thought (Winter 2009) and the Journal of Markets & Morality (Fall 2009)

Named an “Outstanding Academic Title” by Choice (Journal of the Association of University and Research Libraries) (2010)

Defending the Republic: Constitutional Morality in Time of Crisis. ISI Books, Fall 2008 (with Kenneth L. Grasso)

"These essays are timely, thoughtful, and well-written, and this title is recommended for college, university, and law school libraries." Catholic Library World (2009)

American Conservatism: An Encyclopedia. ISI Books, 2006 (with Jeffrey O. Nelson and Jeremy Beer)

"The strong and interlocking entries found in this encyclopedia will make it of great value to all who are interested in American conservatism. Its clarity and richness will suggest fresh and intriguing relations among conservative ideas, thinkers, movements, organizations, and politics. Certainly for all but the stubborn, habituated, and ideologically tenacious of right and left, it will end the ironclad identity of American conservatism with the political right and the Republican party." Joseph Amato in the Journal of Social History (December 2007)

Subject of a front page article in The New York Times ("An A-Z Book of Conservatism Now Weighs In" 6/21/06)

The American Republic: Primary Sources. Liberty Fund, 2002

"Frohen's book now deserves a place among the four or five best teaching tools for the development of the American republic. . . . This is a discriminating, judicious, and—one is tempted to say—inspired and now indispensable selection of primary sources that will enrich the mind and soul of any American lucky enough to be taught from them." Stephen B. Presser in the University Bookman (Autumn 2005)

Also reviewed in the Carolina Journal (January 2003) and The Midwest Book Review (October 2002)

Democracy in America (Henry Reeve Translation of Alexis de Tocqueville). Regnery Gateway, 2002

The Anti-Federalists: Selected Writings and Speeches. Regnery Gateway, 2000

Community and Tradition: Conservative Perspectives on the American Experience. Rowman & Littlefield, 1998 (with George W. Carey)

A "valuable contribution to the ongoing debates about the inadequacy of liberal individualism. Many of the essays will challenge those of us who are liberals or liberal communitarians; we will be obliged to think better about whether truly robust community is not almost inescapably illiberal, and about whether truly liberal

community is not inescapably thin.” Steven Kautz in the American Political Science Review (March 2000)

Also reviewed in the Journal of Religion (Fall 2000) and Ethics (January 2000)
